+ 2nd EXPANSION!

- + New rules!
- + Several different cards played in each game
- + The joy of reinventing your game habits

Game description

These additional cards require the base game. What's new is the event deck. At the start of each round, reveal the top card for everyone: it either changes the usual rules or adds new ones. At the end of the round, the card goes to the player with the most or fewest points, depending on the cards. Only they will benefit from its power, in addition to that of the newly revealed common card. Everything to change the way you play!

ColorADD is a universal, inclusive and non-discriminative language that enables the colorblind to identify colors.
