Game description

The 14 new cards each have two colors: the background color and the flower color. Finally, they bring opportunities for scoring points. Each facedown card that is not covered by a faceup card earns you 5 points and maybe even more thanks to some cards. A new symbol makes you count 1 extra cross for each faceup card of the indicated color.

ColorADD is a universal, inclusive and non-discriminative language that enables the colorblind to identify colors.

Contents

14 new cards and 2 instruction cards.
