Collecting – Points race

Thomas Dupont
Antoine Carrion

+ A new reward system linked to actions, for new strategies.

+ Interaction: Watch out for your opponents' raids!

Game description

This expansion requires the Knarr base game. It allows you to add two elements:

1. The skáli, a farm around which you develop a village whose buildings provide additional benefits depending on the actions you take.
2. Raids, which allow you to acquire wealth if you participate more than others. Otherwise, they become risky!

ColorADD is a universal, inclusive and non-discriminative language that enables the colorblind to identify colors.
